Skill Gap Heatmap

Missing Skills

Spark, Kubernetes, Airflow, Mongoddb, Postgresql, Mysql, Tableau, Power Bi, Tensorflow, Machine Learning, Deep Learning, Etl, Api, Git, Linux, Pandas, Numpy, Data Engineering, Data Analysis

Why These Jobs Match

Engineering Manager

- Matching skills: AWS, SQL, Python, CloudFormation, Datadog
- Missing skills: Financial services domain, senior architecture leadership, agile coaching
- Overall suitability: 5/10
- Improvement: Gain financial sector experience, advanced architecture design, leadership in agile environments

▼ Associate Architect - Software Development (Ruby on Rails)

Match Reasoning

- **Matching skills:** AWS, EC2, S3, SQL, Python, CloudFormation, Datadog.
- **Missing skills:** Ruby on Rails, Docker, ECS, EKS, Puma, Unicorn, Falcon.

Missing Skills

- Ruby on Rails development
- Docker containerization
- AWS ECS/EKS

Skill Improvement Suggestions

- Enroll in Ruby on Rails courses.
- Practice Docker and container orchestration (ECS/EKS).

Suitability Score

4/10 – Strong cloud basics but lacks key Rails and Docker skills.

Recommended Learning

- [Learn docker](#)

▼ Application Security Engineer III

- **Matching skills:** AWS, SQL, Python, Snowflake, Datadog
- **Missing skills:** Secure development practices, AppSec frameworks, software security assessments
- **Overall suitability:** 6/10

Improve through security certifications (e.g., CISSP, CISM), learn OWASP Top 10, and gain hands-on AppSec project experience.

▼ Artificial Intelligence Engineer

Candidate Profile vs. Job Match

Matching Skills:

- AWS, SQL, Snowflake, Python, Datadog

Missing Skills:

- LLM evaluation expertise
- Coding-specific AI tools

Overall Suitability:

- Neutral; lacks specialized AI/LLM skills

Suitability Score: 5/10

Skill Improvement Suggestions:

- Enroll in LLM courses
- Gain experience in AI model evaluation

Application Security Engineer

Match Reasoning

- **Matching skills:** AWS, SQL, Python, Datadog, ServiceNow
- **Missing skills:** Application security frameworks, vulnerability assessment, penetration testing tools

Missing Skills

- Application security tools (e.g., Burp Suite, Nessus)
- Security certifications (e.g., CISSP, CEH)

Skill Improvement Suggestions

- Enroll in application security courses
- Gain hands-on experience with security testing tools

- Pursue relevant security certifications

Suitability Score

6/10 – Strong cloud and data skills but lacks specific application security expertise.
