Top Recommendation: Staff Software Engineer - Developer Platform at Wayfair (77.12%)

Skill Gap Heatmap

Important Missing Skills

Datadog, Distributed Systems, Reliability Engineering, Vpn, Network Security, Cryptography, Networking Protocols, C Programming

Why These Jobs Match

▼ Software Developer

Software Developer

Company: Customized Energy Solutions India

Match Score: 70.65%

AI Match Analysis

- Matching skills: AWS, Python, SQL, Snowflake, CI/CD, automation
- Missing skills: AI/ML frameworks, energy domain knowledge, Java
- Overall suitability: 7/10

Strong cloud and automation background but lacks specific AI and energy sector experience. Consider learning ML libraries and energy industry fundamentals to improve fit.

Matching Skills

Data Engineering

No major missing skills detected.
